

IMPORTANT ANNOUNCEMENT

Level 2 BTEC Awards in Understanding the Laws of Sport

Please note that it has become necessary to postpone current and new applications for approval to offer these programmes.

Edexcel strives to offer highly reliable computer based tests and further work and time is required to develop a large bank of test questions to be used in assessing these qualifications. As a result, no further centres will be given approval to offer these qualifications until September 2008.

Centres that have already gained approval and have registered students to undertake these qualifications have been recently contacted and can be assured that testing opportunities will be provided for these students only during the Summer Term of 2008.

We invite applications for approval and student registrations from new centres from September 2008.

Please contact your Edexcel regional office if you have any further questions regarding this. For details of your nearest regional office please see our website <http://www.edexcel.org.uk/sfc/feschools/regional/>
