Q5000093	10033774	CONSTRUCTION PROJECT MANAGEMENT	5	01-Nov-2003	31-Oct-2008	31-Oct-2011	Construction Project Management NOS are currently under review, with a view to their completion in the summer. The National Working Group carrying out this review work, have identified that, due to emerging industry practice and procurement processes, there is an increasing overlap between the area covered by the existing Construction Project Management L5 (which has a client-side perspective) and Construction Management L5 (which has a contracting perspective). For this reason, the Group have now developed a single core/option suite of NOS covering the wider territory. This has just been launched for consultation. Details of the consultation on the revised Construction Senior Management NOS are now available on the CIC website: http://www.cic.org.uk/activities/consultCSMNOS08.shtml
