

Annex D: Mapping to assist in enabling candidates to move between NVQs in Early Years Care & Education and Children's Care, Learning & Development

Principles behind the document

- 1 There is no direct transfer between the NVQs in Early Years, Care and Education and the NVQs in Children's Care, Learning and Development. This document indicates where evidence generated for the NVQs in Early Years, Care and Education may be used to meet the performance criteria and knowledge for the NVQs in Children's Care, Learning and Development.
- 2 Potential for use of APA/APEL is either:
 - possible- where existing evidence may be used but will need additional material. There may be as much as an 80% correlation between units (describe as full in this Annexe), nevertheless, existing evidence should be matched to specific performance criteria and knowledge requirements.
 - not possible- where there is no equivalent unit (it would in some cases be possible to use evidence from EYCE units but there is no direct match).
